EXECUTIVE SUMMARY

To secure a challenging position where I can utilize to contribute to the success of the organization. I am eager to apply my knowledge and continue to develop my skills in a dynamic and collaborative work environment. Ultimately, I aim to make a meaningful impact, grow within the company.

INTERNSHIP

DLK TECHNOLOGIES (29-06-2022 TO 15-07-2022)   **Chennai, India**

- I did internship in python for 15 days. The mini-project titled "**SALES ANALYSIS"** using Data Science. The main objective of this project is to report a specific set of information with the multiple set of datasets related to Sales Performance for the Stakeholders. The project will analyze the sales data to gain insights and generate meaningful conclusions. By analyzing, the top 3 cities in which parameters have the best selling when compared with others in two major cities.

- I have completed my final project with frontend language like HTML, CSS, JAVASCRIPT & PHP and backend like MYSQL. The project titled "**ONLINE EDUCATION**" is to provide a user-friendly and efficient platform for users and administrators to manage courses and related activities. The project have two sides one is user side and another one is admin side. The system allows users to enroll in courses, access course materials, take quizzes and exams, and interact with instructors and other students. The administrators have access to features such as course creation, management, and monitoring of user activity.
